

1 Introduction

This is a sample document using the CMBright font. The CMBright package provides a sans-serif font that can be used for both text and mathematical content.

1.1 Mathematical Content

Here is an example of mathematical content using the CMBright font:

$$E = mc^2$$

1.2 Text Content

This is an example of text content using the CMBright font. You can use this font for various types of documents, including reports, presentations, and academic papers.
