Math 4573: Number Theory

Lecturer: **Rob LaTour**

Lab Hints

Spring 2025

1   January 14, 2025

The lab for today is just a way to revisit some of the concepts from JUnit Testing from Software I. Please don't look at the solutions just becuase you want. We want you to learn these concepts rather than just doing this lab and calling it a day!

   Hints for today:

- `constructorTest()`: You will create a new instance of the stack being tested.
